Break

Complete your mathematics tasks.

Maths

Pinch a ten

You will need:

- small bag of dried pasta or counters
- pencils or markers
- A piece of paper

Instructions

Take a pinch of pasta (or counters) and determine how many you have in your collection.

Is it: less than 10, exactly 10 or more than 10?

Complete the chart.

[Follow the video instructions](#)

Basketball challenge

Mark a 'starting line' for your basketball toss. Take 3 big steps from your starting line and place a basket or bucket there..

Stand at your starting line and throw your socks with your right hand. Each time you get a sock in the basket, clip a peg onto your chart.

Go back to your starting line and have your second throw. Repeat this until you have thrown your socks 10 times with your right hand and then 10 times with your left hand.

Take a picture of your chart.
What did you discover?
Which side got more goals?
By how many?

Capacity

[Watch the video](#)

Line up 3 or 4 plastic cups/containers. Choose ones that are different in height and width.

Line them up in order of which you think will hold the least amount of water to the most.

Then investigate using water.

Fill each container up to the top.
Now pour the water into a measuring container.

What did you discover?

Capacity Creation

Make 2 of your own containers using one piece of A4 paper each.

Can you make one container with a larger capacity?

Fill them with something dry and test which one has the largest capacity.

Seesaw

100's Chart Challenge

Fill in the missing squares or create your own hundreds chart using a large piece of paper.

Look for as many patterns as you can find.

Name _____ 1/3

Missing Numbers

Fill in missing numbers on 100's chart

1	2	3		5	6		8	10
	12		14		16	17		19
21		23		25			28	30
	32		34		36			39
41		43	44	45		47	48	50
	52	53		55		57		59
61		63	64		66	67	68	
		73		75	76		78	80
